

# Card usb drive

## About

Imagine a promotional USB Card that is more than likely to end up in your client's, customer's, or recipient's wallet.

That is exactly the function that the Wallet USB Card provides. The slim card shaped Wallet USB is designed to easily slip into any wallet or purse. The best part of this is the Wallet USB Cards are a complete representation of your brand – we don't mean it just has your brand logo or slogan printed on it, rather the full-color printing on both sides of the Wallet USB Cards allows for a more immersive branding experience. We highly recommend printing full color images on both sides to properly leverage the promotional effect, and not sell your brand short.

This allows us to create an aesthetic promotional product for your brand, which you can safely expect to be carried around in wallets and purses! In order to maximize the utility of Wallet USB Cards for the recipients, we recommend that when you order these USB Cards, the storage not be locked and be available for the recipient to use. If they are able to use it as their own personal flash drive, this will ensure that the USB Cards do indeed stay in their wallets and purses for a long time to come! And remember, even if they are using the flash drive storage to save their own content, rather than view your preloaded content, the exterior is still beautifully branded with your corporate image. This means that not only is your brand being reinforced and remarketed to your recipient every time they use the Wallet USB Card, but they are also exposing your brand to other people around.

# Swivel USB Flash Drives

## About

What is the most popular complaint with USB Drives? Misplacing the cap. The Swivel USB is an answer to this problem. A no-cap USB, the metal shell can just be rotated when the USB needs to be used. The metal shell can be custom branded on both sides, with printing and engraving.

# Classic USB Flash Drives

## About

Great value in terms of print area and sleek design. The aluminum alloy shell can be screen printed in color or engraved on both sides. This makes it easy to customize for any brand. One of the most popular model. It can also easily be attached to a key-chain by using the split ring at the edge of the USB flash drive. A classic USB drive, the metallic finishing on this is perfect for those wanting to create an elegant brand image. The aluminum alloy shell can be screen printed in color or engraved on both sides. Customize your Classic USB drives by choosing on of the colours we offer, or by requesting us to match a custom color to represent your brand.

# Key Shaped Custom USB Flash Drives

## About

A USB key – literally in the shape of a key, which can be added to your keychain. Would you like people to attach your branded USBs on their key chains, resulting in pro-longed exposure to your brand? Why not make it easier for them by providing a USB key – literally in the shape of a key! The dimensions are the same as that of a standard key. Perfect for key-duplicators, lock-smiths, car manufacturers or anyone in the auto-business. There are plenty of other purposes as well for which the Key Shaped USB would be a creative option. The Key Shaped USB is created from a single piece of metal. This metal has a quality chromium finish. There are various ways the Key Shaped USB can be customized, including various print options, and other accessories like lanyard and keychains. Logo printing is available either by dual-sided color printing, or laser engraving.

# Wooden Custom USB Flash Drives

## About

The perfect promotional USB drive for environmentally conscious companies, especially when trying to send an environmental message. The Wooden USB is made from light wood, which comes from responsibly managed forests. This makes the materials environmentally sustainable, and is bound to make a positive impression on your brand. The fine-grain finish in combination with the magnetic cap ensures that this USB flash drive looks elegant as well. It can be branded by printing in full color, or by laser engraving.

# Custom Stylus USB Pen Flash Drives

## About

Ever wondered what the most popular promotional items are? Statistics show the most popular promotional items are custom branded pens, followed by USB drives.

Our USB Pen combines these two most popular promotional products into one. As icing on the cake, a black stylus has been incorporated on the end of the USB Pen, to keep fingerprints off of your smartphone or tablet! The ink cartridge can also be replaced!

Recipients are extremely likely to use the pen for an extended period of time, meaning you can expect them to always be carrying your promotional message around.

# Bottle Opener Custom USB Flash Drives

## About

Can you name two items that are essential at home and at the office? USB flash drives and bottle openers.

This USB flash drive is another 2-in-1 promotional item which can be used as a bottle opener. This bottle opener USB makes a practical gift which is bound to be useful for the recipient in more than one way.

The bottle opener USB is a perfect promotional product for beer companies, bottled-beverage companies, and other companies in the food and beverage industry. Make sure that the next time someone needs to open a bottle, your brand is there to save the day!

# Metal Mini Custom USB Flash Drives

## About

# USB Clip Custom Flash Drives

## About

The USB Clip attaches to business cards, brochures, and is a great way to share digital content along with physical documents.

Despite all the digitization going on, sometimes it is essential to convey documents as a hard copy, and promote your message and branding with tangible material. The USB Clip attaches to business cards, brochures, and is a great way to share digital content along with physical documents.

It is a subtle addition to your documents; complementing your printed message rather than competing with it.

# Lanyard Custom USB Flash Drives

## About

This is great for conferences and events; instead of using just lanyards, why not use a lanyard that has a USB flash drive integrated into it?

Everyone uses lanyards at conferences and other events, but you want to make your brand stand out. Why not add a USB to the lanyard?

This will provide greater utility to the attendee, making him keep the lanyard and USB drive for longer. Since both items have your branding on them, this means increased exposure for your brand.

# Crystal Custom USB Flash Drives

## About

The Crystal USB flash drive is a luxury high quality product. The USB is made out of acrylic and the lid is a polished aluminum. It is perfect as an elegant gift, and is commonly used by photographers, amongst other businesses both large and small that want to make an impression on their customers. The glass housing can be laser engraved with your logo and branding.
